

MINIMUM REQUIREMENTS

MINIMUM HARDWARE REQUIREMENTS

1. A computer possessing 80386 or higher which supports 80386 instruction format. (This includes 80486, all Pentium and Core 2 Duo)
2. A computer possessing VGA graphics card or higher that is capable of displaying 25x80 text and 320x200 256-colour graphics. (All graphics cards today can do this and there is no exception)
3. An internal speaker to play some sounds. (not actually necessary though, all computers do have one internal speaker)
4. Monitor, Keyboard, Mouse.

MINIMUM SOFTWARE REQUIREMENTS

1. Windows 95 or higher which should support full-screen in DOS. (best Windows XP)

That's all. But sadly, some may not work Windows Vista.
Any difficulty, just contact me by mail.
